

# NTI RVS Golf Course Camera System

Www.NaplesTech.com

Saturday, July 10, 2010

## OVERVIEW

- Stationary or PTZ(pan tilt zoom) cameras available
- Safety on the course, e.g. heat strokes, lightning strikes, heart attacks etc
- Cameras can be mounted on all 18 holes (T-box, fairway and/or greens)
- View all 18 holes from one location back at Pro Shop
- Record professional events to video on DVD
- Less work for Rangers
- PTZ cams allow for long range zooming and 360 degree panning
- Remotely zoom and rotate all PTZ cameras from back at pro shop.
- Secure wireless transmission of all video

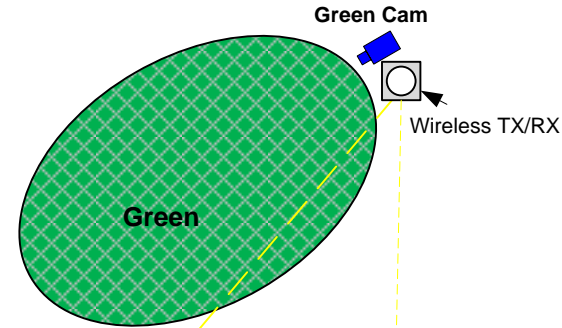

Fairway  
(par 5 example)

Line of Site wireless transmission of video signal between access points and back to Pro Shop

Fairway Cam

**Wireless Access Point**  
Omni directional (1300')  
90 degree (2500')

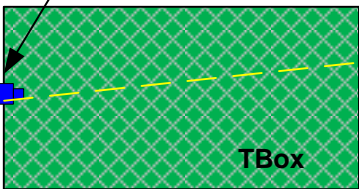

**RVS Server**

All images captured, monitored, stored and retrieved at RVS Server. Software included. Also accessible remotely via high speed internet connection. Monitor all 18 holes from this one location.

**Tbox Cam**  
PTZ / Zoom halfway down fairway

**Long range wireless TX/RX video transmitter (up 2500')**
